Pages Bibliography

In Pages, the Bibliography automatically starts to generate on a new page at the end of your document. If you would like the Bibliography to appear within your current document you will need to set this up before you start inserting references.

1. Open Pages and put the cursor where you want the bibliography to appear.
2. Go to Insert > Endnote Bibliography
3. The Bibliography will be moved to where you cursor is. Make sure you insert any text or references above it.

Use EndNote to Cite While You Write (CWYW) in Pages

Inserting a reference

1. Open Pages
2. Place your cursor where you wish to add your first citation.
3. Click on Insert and then select EndNote Citation.
4. The Find EndNote Citations search box will appear. Enter the Authors’ name or a keyword for the reference you wish to find and hit enter.
5. Highlight the citation you wish to use and select **Insert**.
6. The bibliography will start generating on the last page of your document.

**Change output styles in Pages**

1. Click on **Edit** and then select **EndNote Citations > Bibliography Format** and select the style.
